Property services to secured lenders insolvency and turnaround practitioners

Sanderson Weatherall is one of the country's largest independent property and machinery and business assets consultancies offering nationwide cover via our 250 directors and staff in our network of offices.

We have a long-established reputation in the areas of corporate recovery, restructuring, banking and turnaround offering a dedicated service across all categories of tangible and intangible assets with specialist industry knowledge of many sectors.

Our experienced directors and staff work full time in these areas and thus understand the particular demands and subtleties of this specialist work. Qualified property valuers work closely with colleagues in our dedicated Machinery and Business Assets teams and we can, therefore, provide a seamless service to the practitioner across all classes of asset. We offer:

- Confidential reviews in pre-formal insolvency or turnaround situations
- Preparation of formal valuations
- Strategic and innovative advice to maximise value and reduce liabilities
- Rationalisations and disposal of all types of property
- Effective advice on unlocking alternative use potential
- LPA/fixed charge receiverships via our RICS registered Receivers

Our property specialists have the benefit of full divisional support in order to provide a multi - disciplined service to our clients.

We are happy to have confidential, no obligation discussions and pride ourselves in providing informed, commercial and pragmatic advice delivered in a timely and user-friendly manner.
